**Agency Asks for Damage Reports from Severe Weather June 2**

**6/2/10 Storm Damage Reports:** FCEM&HS is compiling storm damage reports following last night's severe weather. Please email reports of local storm damage (trees down, etc.) to our offices at [fcem&hs@franklincountyohio.gov](mailto:fcem&hs@franklincountyohio.gov). We will forward the reports to the National Weather Service office in Wilmington, Ohio. NWS issued a tornado warning for Franklin County shortly after 8 p.m. last night, triggering activation of the Franklin County Outdoor Warning Sirens until shortly after 8:30 p.m.

**Standard Precautionary/Preparedness Actions:** Remember, in the event the National Weather Service issues a tornado warning or when you hear the outdoor sirens, take cover immediately. Move to an interior room on the lowest floor of a sturdy building. Avoid windows. If you are in a mobile home, in a vehicle, or outdoors, move to the closest substantial shelter and protect yourself from flying debris. Listen to a battery powered radio or NOAA Weather Alert Radio for up-to-the-minute information.
